

Combined card and till payments with Smartlink

Smartlink is a payment solution that seamlessly integrates the terminal with the till system. Transaction details are automatically shared between your till and your terminal, for a seamless payment experience.

Smartlink speeds up the payment process as there is no need to re-enter the amount to be paid into the terminal, helping to reduce keying and end of day reconciliation errors.

Smartlink benefits:

- Keeps queues moving quicker
- Increased checkout speed
- Reduces likelihood of input errors
- Simplified reconciliation

Features	Benefits
Access to services such as Dynamic Currency Conversion (DCC), loyalty schemes and cashback	Improved business revenue
Compact and lightweight design	Save on counter space
Large, colour touchscreen	Enhanced usability
Contactless as standard	Speed up the transaction
Accept card payments from Visa, Mastercard, Amex, UPI, Diners, Discover and mobile payments/payments with mobile devices	More choice, more customers
Passwords for refund, void, cashier (optional)	Greater security
Free format text field for transaction specific references	Simplified reconciliation

Enhance your customer's payment experience

You can make your terminals even more effective for your business with our range of value added services:

Display your logo
Keep your brand visible right up to the moment of payment by easily adding your logo to your terminal and till receipts.

Dynamic Currency Conversion (DCC)
Give international Visa and Mastercard cardholders the choice to pay in their own currency rather than the local currency.

Tax free
Allow your customers to reclaim international tax duties on purchases. Used with DCC, your terminal can automatically recognise cardholders eligible for international tax refunds.

Gift cards
Give your customers the option to treat their friends and family with gift cards. Amounts can be easily added to cards and recognised as a transaction on your terminal when vouchers are redeemed.

We make it possible. You make it happen.

Get the right payment terminal for your business

elavon.co.uk

A great payment experience for you and your customers

When your customer wants to pay, you need to be ready to take their payment quickly and seamlessly. Cards are one of the most widely used payment methods making it important that you choose the right type of point-of-sale terminal to suit your business. Elavon offers a full range of point-of-sale terminals, that will enable you to take payments on the move or from a fixed location.

The preferred way to pay

By offering a choice of payment methods you have the opportunity to reach more customers and increase sales. Elavon terminals accept all types of card payments including credit, debit, Google Pay™ and Apple Pay from all major card brands. Built-in contactless technology means you can reduce customer waiting times and process fast and secure card payments.

Key benefits:

-  Accept all major cards
-  Secured by Elavon
-  Affordable
-  Reliable
-  Engineer installation and on-site training
-  24/7 support

With Elavon, it always works - it's easy to use and never a hassle. Our card machines have never let us down so it never gets awkward at the table. It's really good."

Ruth Hearty,
Waitress, Fire

Portable wireless terminals

Ideal for taking payments wherever the customer wants to pay. No more detours to the payment desk or waiting in queues. Our portable payment terminal is the perfect companion for restaurants, pubs and trade shows, festivals and outdoor trading, or simply an extra point-of-sale at extremely busy times.

Wireless benefits:

- Offers choice of WiFi, Bluetooth or 3G connectivity which allows you to switch between the communication method when the primary connection is weak or unavailable
- Extra long-life battery
- Includes a roaming 3G SIM for the best possible mobile coverage
- Comes with charging cradle for greater convenience of use

Fixed countertop terminals

Ideal for at the counter payments if you have a shop payment desk or hotel reception. Our countertop terminals are affordable, reliable, secure and easy to use. Besides that they are compact, so taking up little space on your working surface area.

Countertop benefits:

- Unrivalled transaction and download speeds
- Automated end-of-day reports for easy reconciliation
- Integrated thermal printer (no more paper jams)
- State-of-the-art security
- High-speed communication option to avoid the cost of a dedicated phone line

Secured by Elavon

We know payment security is a priority for customers, therefore is a priority for us. We offer Secured by Elavon to all customers, which provides some of the best payment security and fraud prevention products in the market. These are all designed with the sole intention of

keeping your customers card data and your business safe from fraud. We offer solutions for all customers which help prevent the theft of debit and credit card data from point-of-sale terminals to protect customer data against fraud.

From the moment the customer inserts their card, until payment is completed, their card data is encrypted, rendering it useless to potential fraudsters. Customers using these solutions can also benefit from the simplified PCI DSS compliance process.
